WHO IS THIS MAN PAINE.

The one individual who disgraced the Salem escort committee that went to Eugene to receive the editors was the official person who conducts the Inmate Asylum. He was made one of the committee by extreme stretch of courtesy as he has no vital relation to Oregon or her industries, if he is on the state payroll. He violated the deceptions of the occasion by referring to two of the newspaper men who were along as blackmailers.

THE JOURNAL is one paper excluded from circulation at the asylum, as far as this person Paine can exclude it. Just what he contributed to make the editorial reception a success can not be told, as it was not a matter for which he could well levy an assessment on the employees of the asylum. Just what exhilarating effect it could have had on visitors to this state to be introduced to a keeper of the insane is not exactly known.

The charge that newspaper men are blackmailers can have no foundation in Dr. Paine's case, as he was never known to part with over two-hits at a time, unless under extraordinary pressure. He did levy a large assessment for campaign purposes which has never been accounted for. There were persons in the Salem escort who do not think too well of Paine but they had the decency and good breeding to not go spluttering through the case about it.

This Paine like some others does not seem to know that when an individual is honored with a position where he acts for the entire community he must lay aside his personal antipathies and at least assume the part of a gentleman, however foreign it may be to him. Paine is not yet as fully known to the people of Oregon as he will be some day, and the least he could do would be to not obtrude his personality on public notice, as long as he does not court any inquiry into his official record.

Doctors Can't Cure It!

Contagious blood poison is absolutely beyond the skill of the doctors. They may do a patient for years on their mercurial and potash remedies, but he will never be rid of the disease; on the other hand, his condition will grow steadily worse. S. S. S. is the only cure for this terrible affliction, because it is the only remedy which goes direct to the cause of the disease and forces it from the system.

I was afflicted with Blood Poison, and the best doctors did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took almost every medical remedy, but they did not seem to reach the disease, and had no effect whatever. I was disheartened, for it seemed that I would never be cured. At the advice of a friend I then took S. S. S., and began to improve. I continued to take it, and in a few days I was completely cured. I have never had a sign of the disease return.

It is like self-destruction to continue to take potash and mercury; besides causing indigestion, the digestion, they try to get the narrow in the bones, producing a stiffness and swelling of the joints, causing the hair to fall out, and completely wrecking the system.

S. S. S. The Blood

Is guaranteed Purely Vegetable, and is the only blood remedy free from those dangerous poisons.

He cannot love his neighbor as himself. The school is a place where the citizen is developed. Due regard for the rights of others can hardly be attained without the daily contact with many fellow creatures. An advantage of the home over the school lies in the power of parental influence, which lays the foundation of virtue, obedience, self-control, integrity—training in which should be carried on both at home and at school. Too much, however, should not be relegated to the work of the school, since education is the work of all the hours of all the days, and the child's out-of-school life contains fully as formative influences as his school life. A danger is threatening us in the socialistic tendency in the conduct of our schools and crowded curriculum. If we are to proceed from the step of providing free text books to that of providing the indigent with all necessities, the nation will awake at some future day to the knowledge that all responsibility has been gradually removed from parents and every encouragement is offered for the continued reproduction of beneficiaries of the government. It should be our aim to educate our children for responsibility, not for shifting their burdens upon the government. Neither home nor school is a complete organization for the development of the child. There is room for both and instead of opposing each other, they should be made to work in harmony. Appreciation of each other has at last begun. The establishment of parents' meetings is significant of a widespread awakening on the subject of the education of the children. There are two things of which the American may feel justly proud—the American home and the American school. These, united and harmonious, will develop citizens who realize for what they are called on the world's stage, and that their call must not be for self alone, but for humanity.

Howard J. Rogers, director of education and social economy, United States commission to the Paris Exposition, closed the general session with a highly interesting description of the proposed exhibit of the United States at Paris.

The fifth annual session of the Catholic Columbian Summer school was opened today at Madison Wis. Prominent among the visitors were large parties from Chicago, Milwaukee, Dubuque and St. Paul, Bishop Messmer, of Green Bay, president of the school, was the celebrant of the pontifical high mass which was the leading feature of the ceremonies.

The session which began today will continue three weeks and will be rich in the number of eminent speakers who will deliver lectures on both religious and profane subjects. There will be held a number of conferences of Roman Catholic societies, and some of the sessions of the school will be given over to state and city reunions, on which occasions the sessions of the school will be given over to the members of the school from the state or city holding the reunion.

The annual Orange celebration took place at Belfast, Ireland, there being a parade and speech-making accompanied by the usual disorderly disturbances between Orangemen and Nationalities.

At Toronto, Canada, Orangemen from all over the province united with the local members of the faction and marched in procession through the principal streets of the city in commemoration of the anniversary of the Battle of the Boyne.

The Republican state convention was called to order today at Lexington, Ky., by C. M. Barnett, chairman of the state central committee. The convention will nominate a full state ticket to be voted for this fall. Interest centers chiefly in the fight for the gubernatorial nomination in which it is Attorney General W. S. Taylor against the field, with the odds apparently in his favor. The issue is divided between the Federal administration forces and the Bradley-Hunter faction, General Taylor leading the first named.

Contributions continue to pour into the London Gladstone Liberal Memorial fund, notwithstanding the announcement that the committee in charge of the subscriptions already has an available surplus of \$12,000. After much debate the committee has decided to devote the surplus to the establishment of prizes in books, to be called the Gladstone Memorial prizes, at the universities of Oxford, Cambridge and London, and at the universities in England, Scotland and Wales, for special proficiency in history, political science and economics.

The pension committee of the Grand Army of the Republic is in session with R. B. Brown, of Ohio, presiding. The other members of the committee are Charles Clark Adams, of Massachusetts; J. W. Burt, of Illinois; H. B. Case, of Tennessee; and John Palmer, of New York. A number of department commanders from western states and other prominent members of the organization are on hand in anticipation of an investigation of the charges made against pension Commissioner Evans.

A LIFE SAVED.

Dr. J. F. Cook, the Botanical Specialist, Succeeds Where Others Fail.

To whom it may concern:

This is to certify that Bertha P. Conner, of Mt. Angel precinct, Marion county, Oregon, has suffered from a cancerous growth in the left ear for about three years. The growth was cut out twice and burned out once by Albany Physicians, but the growth came back as bad as ever, and pained her so badly that she had to be taken from school. After three weeks' treatment by Dr. J. F. Cook, of Salem, Oregon, the Botanical Specialist, the growth entirely disappeared, and at this date, four months since treatment was begun, the growth has not reappeared, and the ear has entirely healed leaving only the scars inflicted by the Albany doctors.

I hereby certify that the above statement is absolutely true, and that Bertha P. Conner, the person mentioned in the affidavit, has resided in my family since early childhood, bearing the relationship to me of niece.

H. C. LONG, Subscribed and sworn to before me this eighth day of June, 1899. W. W. Hall, county clerk of Marion county, Oregon.
